With sufficient influence brought to bear in the proper direction and in the proper manner, it is almost certain that the condition of these roads which need it would be made passable to the bicyclist.

Now, since the Columbia Athletic Clubhas taken on such a large increase in its membershipwand made the bicycle amailiary a feature, it is proposed by the management and membership to at once begin a crusade for good roads, and as the pioneer in this locality in the good cause, it is sure crusade for good roads, and as the pioneer in this locality in the good cause, it is sure to exert earnest influence and to make endless effort to carry its point, which will be univesally appreciated. It is proposed at first to point out in a systematic manner the roads that need attention, showing their exact condition and what is needed to make them good roads. PEOPLE'S REGATTA.

With the possible exception of the Na-tional regatta at Saratoga the people's regatta at Philadelphia on July 4 is the best managed of the rowing fixtures of the country. It is an annual event which is given under the auspices of the Schuyikill Navy in conjunction with the city council's committee of the City of Brotherly Love.
The event this year will be made especially attractive by the fact that the prizes offered are far above the ordinary "rewards of merit" given to winners elsewhere. Gold stop watches will be presented to each member of a winning crew. This above is an incentive for a whole seaon's hard training and the crews which row at that regatta are among the best in the

POTOMAC RIVER REGATTA. At the present writing there is little activity at the headquarters of the Potomac River registra joint committee. There is but little to do now, except to answer inquiries of out-of-town clubs as to arangements and so on.

The members of the three clubs have been well supplied with tickets for the joint excursion for the regatta fund, and if they are not doing so they should lose no time in pushing their sale, as from their sale must come the sinews of war with which to carry on the local rowing event of the

year.

But little preparation is being taken at
the water for the event, excepting at the

One Week's News and Gossip Around Local Armories.

The annual report of Major Alexander, inspector general, has been received at headquarters. It shows the National Guard to be in a very satisfactory condition. The report is the last setal of the work of the winter, and signalizes the comple-tion of the brigade's work in winter

"This report," said Adjt. Gen. Mosher, "confirmed by my own observation and study of the condition of the brigade, makes it evident that the militia is today in better condition than it ever has been before during my service as its adjutant general. Nearly the whole brigade has been rid of the dealt wood on its rolls, and the improvement in attendance and con-dition of arms and accounterments indicated in this year's brigade average is but proportionate to the increased effi-ciency and capability of the Guard as a

Now that the inspections are completed Now that the inspections are completed, guardsmen are at liberty to turn their attention to summer assignments, and the question of a camp will probably be settled in a short time. This is a matter in which all the boys are interested. Many of them are now compelled to fix the time of their summer outings, and if the Guard is to go into camp this year they wish to know it before making definite plans.

Many of the mer claim that the failure of headquarters to give sufficient notice of the intention of the commander has seriously inconvenienced them. They point at that last year they were given almost a year's notice, while this senson they cannot have more than a month or two notice. The result will be that a greatmany of the members will be quable to get away.

Capt. John 8. Miller of Company D, Washington Light Infantry Corps, has been tendered the captaincy of Company A, same corps. He has accepted the offer and will transfer from his old company at once. It

has not yet been determined who his suc-cessor will be. The resignation of First Lieut. Peter J. Duffy has been tendered and this will leave Company D in command of Second Lieut. Howard Beall for the

present.

It is said that this company will be thoroughly reorganized and new officers elected. When these changes are made they will give the Infantry a compact organization, well officered and one company in process of reorganization, as follows:

Company A, Capt. John S, Miller; Company B, Capt. Charlea M. Bhreve; Company C, Capt. Jesse B, K. Lee, and Company B, reorganizing.

be made.
The National Rifle Association of Amerrice National Rine Association of America, the new owners of the range, were incorporated yesterday, and the members will soon take possession of their property. That the Guard will profit by this new condition of affairs there can be no doubt. ST. PAUL

with everybody about the future price of stocks. Maybe it is only luck that we have always struck it right; then, maybe it is not our Baturday's letter tells you what we think of St. Paul and some remarks on

SILVER.

We shall pay particular attention to politics and sliver (same thing); they will rule the markets for a long time to come. Do you remember that we are generally ahead of everybedy in predicting what is to be? Did you read our letter of weeks ago when we everybody in predicting what is to be? Did you read our letter of weeks ago when we said the silver people were the power? Don't be feoled into despising them. Do you remember our letter of last fall: Burlington above 20! Enormous corn crop, etc., etc., where we said the big crop was a bear argument, and told you why? You cannot expect us to send you a letter every day indefinitely, while you are speculating or investing elsewhere, and you do not do yourself justice if you fall to avail yourself of the many suggestions in our letters that can be turned into money. Our facilities in everything in our link are absolutely unequaled elsewhere. Do you remember our assertion that if you will examine any old account showing many transactions and lesses and figured out how you would have fared following the rules on our circular card, the account would show a profit? We are willing to wager that not only can you not show an old account which would not be profitable following those rules, but you could not make up a fictitions account of losses that the rules won't show were unnecessary.

Drop in and see us or write for market letter and circular-card. Remember as much money can be made by selling shors at the right time as in any other way.

GOLD STANDARD

Last week's advance is more than a rally. It indicates the end- of liquidation and a marked improvement in market conditions. The importance of the doption of the Gold Standard by a representative body of the American people cunnot be overestimated. It is a great built factor. It creates a new and growing confidence both at home and abroad in all American interests. A high national credit a large and steady spin to the independent credit, a large and steady gain in the indus tries of the country and growing wealth make a solid foundation for greater prosperity than the country has ever seen.

AMERICAN STOCKS AND BONDS ARE NOW THE CHEAPEST AND SAFEST INVESTMENTS IN THE WORLD.
